Sulfazyme™ PaS

recombinant aryl-sulfatase

Certificate of Analysis

Product Description:

Sulfazyme PaS (EC 3.1.6.1) is a purified recombinant aryl-sulfatase. Sulfazyme hydrolyzes the sulfate groups from metabolites that have been sulfated as part of phase II detoxification in the liver.

Catalog Number

Quantity

04-PAS-010

10 mL

04-PAS-050

50 mL

Product Specifications:

Physical description:	Aqueous solution
Specific Activity*:	>2.5 U/mg
Storage temperature:	2 - 8 °C

*One unit will hydrolyze 1.0 micromole of *p*-nitrocatechol sulfate (pNCS) per hour at pH 8.0 at 30 °C.

Lot Number:

Test Date:

Exp. Date: *6 months upon receipt at 2-8 °C*

Rec'd Date: / /

Quality Approval:

MADE IN THE USA
